empower Business Solutions Accepts Invitation to Join Sage Accpac Product Advisory Council

empower Business Solutions accepted Sage Software's invitation to sit as a member of their Product Advisory Council (SPAC). The Sage Product Advisory Council is made up of 15 members of the Sage Software Business Partner Community from across North America. The council meets four times a year with Sage Software executives to discuss specific product releases, development and delivery schedules, technical support issues, and to provide Sage with "to market" strategies.

One of the council's main focus is to act as a filter between client requests and developers ideas. With the new Product Council clients are now able to make product enhancement requests directly to Sage at <http://ideascopeanywhere.com/Sage-Accpac/frmSubmitIdea.aspx> . Feature enhancements submitted through this portal are received into a database that ranks and prioritizes all requests so features that clients ask for are acknowledged by the system.

About empower

One of Western Canada's leading Sage Accpac solution providers empower has worked with some of BC's best known companies. With a client centric focus we help mid market companies improve profitability, reporting and streamline business processes by implementing end-to-end business solutions which includes financial, operational, payroll, Human Resource Management, Customer Relationship Management, eCommerce, and manufacturing.
